

# Nature Can Be Tough

But that's tough in a good way. Our products derived from natural ingredients meet the highest standards when it comes to properties like anti-abrasion, scratch and burnish resistance. Choosing a natural alternative from MPI sacrifices nothing and delivers a biodegradable, no-compromise natural solution. Here are just a few products from our natural portfolio:

## NATUREMATTE 31 micronized biopolymer

For matting with  
**excellent burnish resistance**

WET SCRUB GLOSS INCREASE, 85°

No Wax	5.2
Polypropylene wax	4.9
NatureMatte 31	3.8 

## NATUREFINE R331 micronized rice bran wax

For lubricity with  
**superior abrasion resistance**

TABER ABRASION LOSS, mg

No Wax	42.3
PTFE/Polyethylene wax	34.4
NatureFine R331	25.2 

## MICROKLEAR 418AL micronized carnauba wax fortified with nano aluminum oxide

For clarity and slip with  
**exceptional scratch resistance**

PENCIL SCRATCH HARDNESS

No wax	HB
Polyethylene wax	5B
MicroKlear 418AL	8B
