

FROM SEED TO HARVEST

AGRICULTURE SOLUTIONS YOU NEED

Dar-tech, inc. distributes specialty chemicals and raw materials from its global network of suppliers. Our suppliers are leaders in their field and they are known for their innovative products.

In the ever-changing world of government regulations, that demand higher crop yields and seed processing optimization, the technical advances from our suppliers provide the path to these goals. Advances such as bio-renewable/biodegradable products in dispersing additives, micronized waxes and polymers.
